

OUT-SWING DOOR

COMBINATION ASSEMBLIES

Combinations are a great way to create visual interest in any project. A combination is an assembly formed by two or more separate windows or doors whose frames are mullered together by a combination or reinforcing mullion.

Pella door combinations are available in an endless variety of arrangements. Below are available factory-assembled combinations. Some units can be fixed or vent depending on availability. See the Performance and Installation section for typical combinations and requirements and limitations related to mulling various combinations.

Contact your local Pella sales representative for more information.

Arch Head over Single Half Circle over Single Transom over Single¹ Single with Left Sidelight Single with Right Sidelight Single with Double Sidelight
