Pella® Impervia®

Sleek, Black dual-pane picture windows with between-the-glass grilles.

5. TAILOR YOUR HOME TO YOU

New windows and doors can dramatically improve the beauty of your home — inside and out.

6. IMPROVE COMFORT AND PRIVACY

Control natural lighting and privacy with between-the-glass blinds and shades.

7. ADD PEACE OF MIND

With excellent engineering and quality materials, you can be confident that every window and door will operate as intended for years to come.

To learn more, visit PellaAtLowes.com.

¹ Return on project costs upon resale for vinyl replacement windows according to the National Association of Realtors 2025 Remodeling Impact Report. Replacement wood windows have a 71% median return on project costs upon resale

² Pella products may not meet ENERGY STAR® guidelines in Canada. For more information, contact your local Pella sales representative or go to energystar.gc.ca

7 Reasons to Replace

There's more to gain from new windows and doors than thoughtful designs. Check out what new Pella® products can do for you.

1. HELP LOWER HEATING AND COOLING COSTS

Drafty, leaky windows make your furnace and air conditioner work harder and increase your energy bills. It's time to get efficient and replace those old windows.

2. INCREASE YOUR HOME'S VALUE

Vinyl replacement windows have a 74% median return on project costs upon resale.¹

3. ACHIEVE GREATER ENERGY EFFICIENCY

Pella windows and doors offer energy-efficient options that will meet or exceed ENERGY STAR® certification in all 50 states.²

4. KEEP OUTSIDE NOISES OUT AND INSIDE NOISES IN

Insulating window frames and multiple panes of glass help reduce the noise from traffic, lawn mowers and neighborhood activity.

Vinyl replacement windows have a

median return on project costs¹

Pella® 250 Series

White sliding vinyl windows.

Why You Can Trust Pella

At Pella, we don't just create windows and doors. We innovate with purpose, design with passion, build with integrity and deliver with pride. That's why **Pella is the most preferred window and door brand by homeowners.**¹

Meet the Pella® Lifestyle Series Hidden Screen

The Hidden Screen appears when you open the window and folds away when it is closed. It gives you a clear view when your window is closed and improves curb appeal year-round.

RATED #1 BY HOMEOWNERS FOR HIGHEST CRAFTSMANSHIP¹

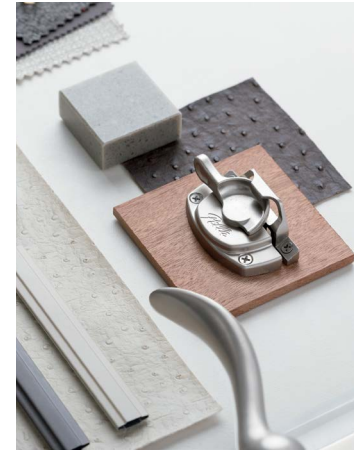

Our drive to improve what we do and how we do it has earned us 284 patents and counting for groundbreaking innovations. The revolutionary Hidden Screen provides easy and convenient access to fresh air and natural light without compromising your view and the Easy-Slide Operator hardware for casement and awning windows allows you to simply slide to open, without the effort of cranking.

RATED #1 BY HOMEOWNERS FOR HIGHEST QUALITY¹

We sweat the details so you don't have to, delivering products created specifically for your projects. On average, we perform over 9.5 million quality checks every year. At Pella, just meeting the standard isn't enough. That's why we test beyond requirements and set a new standard to ensure quality windows and doors that are built to last.

#1 LIMITED LIFETIME WARRANTY FOR WOOD WINDOWS AND PATIO DOORS²

You can feel confident in your investment. We pride ourselves on providing exceptional quality, exceeding expectations and going beyond requirements. That's why we stand behind our windows and patio doors with a limited lifetime warranty.²

Explore Window & Patio Door Styles

Perfectly complement your home's style with windows that are tailor-made to help ensure the right fit and will last for years to come.

Pella® 150 Series
White single-hung windows with 3/4" contour grilles-between-the-glass.

DOUBLE-HUNG WINDOW

Appropriate for any style home, double-hung windows have two sliding sashes providing efficient ventilation. Raise the lower sash to allow in a cool breeze. Lower the upper sash to pull hot air from the ceiling outside.

CASEMENT WINDOW

Casement windows are hinged at the side and swing outward, providing an abundance of light and fresh air. They open and close easily with the turn of a handle or the innovative Easy-Slide Operator hardware solution, making them a great option for hard-to-reach spaces.*

AWNING WINDOW

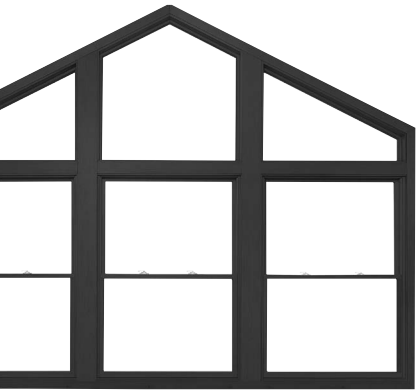

Awning windows are hinged at the top and swing outward from the bottom. They open and shut with the turn of one easy-to-operate handle or with the slide of our revolutionary Easy-Slide Operator hardware.* Add architectural interest and light by placing them above or below other windows.

SINGLE-HUNG WINDOW

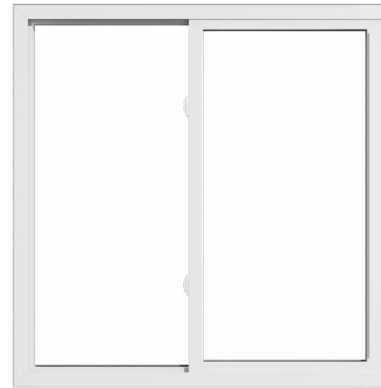

A classic look for any home, single-hung windows are raised from the bottom for ventilation, while the top sash remains stationary, helping to deliver a secure seal against the elements.

* Easy-Slide Operator hardware available on Pella Impervia® casement and awning windows.

WINDOW COMBINATIONS

Join two or more standard-size windows together to create a custom look at a lower price. Add special shapes to the combination to create a stunning focal point.

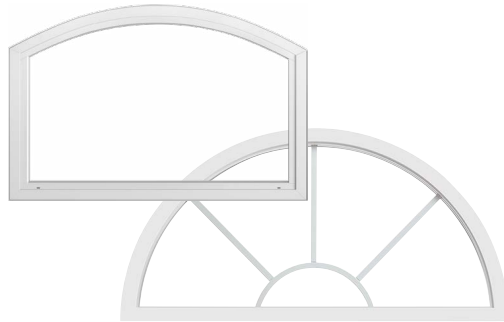

SLIDING WINDOW

Horizontal sliding windows easily slide open from one side, providing easy access to fresh air. They are commonly used in places where it may be difficult to open a window vertically, like over a sink or in a bathroom.

SPECIAL SHAPES

From curves to angles, these windows offer virtually unlimited design possibilities to achieve a custom look for your home at a competitive price.

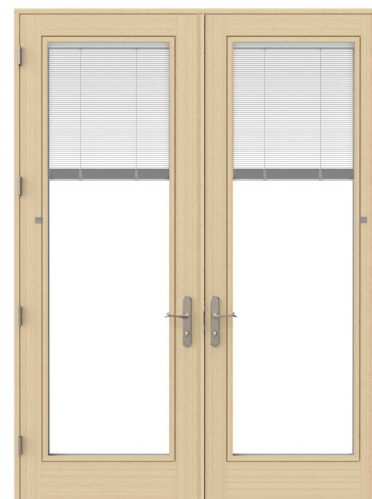

SLIDING PATIO DOOR

Sliding patio doors don't swing open, requiring less open floor space to operate. They are a great source of natural light and are available in a variety of materials and finishes to complement your style.

BAY OR BOW WINDOW

Bay windows consist of three windows, with the center fixed and the sides either fixed or venting. Bow windows are typically four or more to create a more graceful curve and can be a combination of fixed or venting windows.

HINGED PATIO DOOR

Pella's hinged, wood patio doors are available in stunning designs. Choose from two movable doors that swing open from the sides, one movable with one fixed door, or a single door for simple elegance.

Select the Right Material

Aluminum-clad wood, fiberglass and vinyl are the most common choices, and each has its own unique attributes and distinctive styles.

The best limited lifetime warranty for wood windows and patio doors!¹

Pella® Lifestyle Series

Black, dual-pane double-hung windows with custom between-the-glass grilles.

Aluminum-Clad Wood

Get the beauty and warmth of natural wood, our most customizable designs and exceptional energy efficiency. Our innovative EnduraGuard® wood protection and our aluminum-clad exterior with EnduraClad® finish help provide long-lasting performance for years.

Fiberglass

Windows and patio doors ready to handle virtually anything life throws at them. Pella's proprietary fiberglass is the strongest material for windows and patio doors, engineered for lasting durability.² It's tested to withstand the most extreme heat and cold, damaging UV rays and conditions of seacoast environments.

Vinyl

When you want low-maintenance, affordability and energy efficiency, vinyl is the right choice. Our unique vinyl formula is performance-tested for excellent weathering, durability and color retention. Multi-chambered frames and metal-reinforced, interlocking sashes add strength and durability.

1 VISIT the Pella Design Center® in Lowé's to explore what makes our materials better.

¹ Based on comparing written limited warranties of leading national wood window and wood patio door brands. See written warranty for details, including exceptions and limitations, at pellaatlowes.com/support.

² Pella's proprietary fiberglass material has displayed superior strength over wood, vinyl, aluminum, wood/plastic composites, and other fiberglass materials used by leading national brands in tensile and 3-point bend tests performed in accordance with ASTM D638 and D790 testing standards.
