ARCHITECT SERIES SLIDING DOOR RETAINER INSTALLATION INSTRUCTIONS

TOOLS REQUIRED:
- #2 Phillips screwdriver

PARTS INCLUDED:
- Panel Retainer
- #8 x 1-1/2" Phillips pan head screw (2)

1 INSTALL THE RETAINER

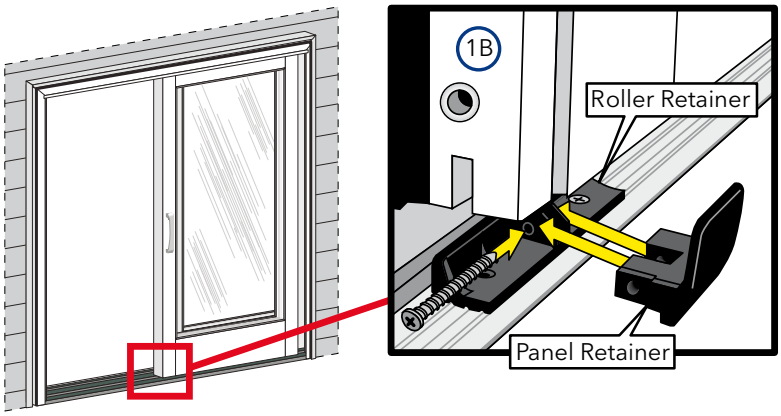

A. **Slide the movable panel all the way open,** and from the exterior, find the roller retainer located near the interlocker.

B. **Place the panel retainer** on the roller retainer and insert the screw provided.

Note: Only one screw is required per retainer. An extra screw is included in case one is lost or damaged during installation.

⚠ WARNING!

If the panel retainer is not installed, the door panel can fall from the product, possibly causing death or serious injury. Follow directions closely when installing and servicing the product.
