(—) = Not Available

(1) Maximum performance for single unit when glazed with the appropriate glass thickness. See Design Data pages in this section for specific product performance class and grade values.

(2) The higher the level, the greater the product's ability to resist forced entry.

(3) Glazing configurations may result in higher operational forces.

(4) ASTM E 1425 defines standard sizes for acoustical testing. Ratings achieved at that size are representative of all sizes of the same configuration.

Lifestyle Series Sliding Patio Door

Features and Options

Interior Frame Finish Colors

Interior Color / Finish	Interior Frame
Factory prefinished White, Linen White or Prime	White Painted Aluminum
Factory prefinished Bright White	Classic White Painted Aluminum
Factory prefinished Black	Black Painted Aluminum
Unfinished, factory prefinished Stain	Wood Trim Cover finish matched to panel interior finish selection. (Covers a black aluminum frame)

Hinged Glass Panel Adapter Colors

Interior Color / Finish	HGP Adapter Color
Factory prefinished White, Bright White, Linen White or Prime	Gray
Factory prefinished Black Stain, Golden Oak Stain, Early American Stain, Provincial Stain	Black
Unfinished or Factory prefinished Natural Stain	Pick Black or Gray

Vent Lock Hardware Finish Colors

Interior Color / Finish	Vent Lock Hardware Finish
Factory prefinished White, Bright White, Linen White or Primed	White Painted
Factory prefinished Stain Black, Golden Oak, Early American, Provincial	Black Painted
Unfinished or Factory prefinished Natural Stain	Select White or Black Painted

Screen Hardware Colors

Screen frame will match exterior cladding color, Screen hardware is set according to the exterior finish chosen.

Exterior Clad Color	Screen Hardware Color
White, Classic White	White
Brown, Portobello	Brown
Fossil, Almond, Putty	Fossil
Wolf Gray	Morning Sky Gray
Black, Iron Ore, Brick Red, Hartford Green	Black

Lifestyle Series Sliding Patio Door

Combination Assemblies

Combinations are a great way to create visual interest in any project. A combination is an assembly formed by two or more separate windows or doors whose frames are mullied together directly or using a reinforcing mullion.

Pella window combinations are available in an endless variety of arrangements. Below are examples of typical sliding door combinations.

Factory assembled mullions are limited to factory assembled two panel doors ≤ 96 inches.

The factory mullied units combined must be ≤ 103 " High and ≤ 144 " Wide.

Any two panel doors greater than 96 inches or using knock-down-frames will require field mullion assembly.

All 3 and 4-panel doors or any units using knock down frames will require field mullion assembly.

Refer to Combinations section for requirements and limitations or contact your local Pella sales representative for more information.

Lifestyle Series Sliding Patio Door

Detailed Product Description

Frame

- Head and jambs are aluminum with fiberglass thermal breaks.
- Low-profile solid fiberglass sill with Black finish.
- Interior trim is pine edge banded and veneered and finished to match panel interiors.
- Exterior surfaces are aluminum at the head and jambs.
- Components are assembled with screws and corner locks.
- Optional factory-installed fold-out installation fins with flexible fin corners.
- Fin position will accommodate standard 4-9/16" (116 mm) wall depths.
- Frame depth is 5-7/8" (149 mm).
- Optional supplied jamb extensions available between 4-9/16" (116 mm) and 7-3/16" (183 mm) wall depths.
- Optional factory-applied EnduraClad® exterior trim.

Door panels

- Select softwood, immersion treated with Pella's EnduraGuard® wood protection formula in accordance with WDMA I.S.-4. The EnduraGuard formula includes three active ingredients for protection against the effects of moisture, decay and stains from mold and mildew. Plus, an additional ingredient adds protection against termite damage.
- Interior exposed surfaces are veneered with pine.
- Exterior surfaces are clad with aluminum.
- Panel stiles have LVL core and veneered on interior face.
- Panel rails are constructed with randomly finger-jointed blocks laminated with water-resistant glue and veneered on interior face.
- Corners are secured with metal fasteners and structural adhesive.
- Panel thickness is 2-1/16" (52 mm).
- Vent panels have two adjustable ABEC 5 sealed electroplated steel ball-bearing rollers with organic coating, set on stainless steel track, standard.
– or –
- Two adjustable corrosion-resistant stainless steel ball-bearing rollers; out of-unit option.

Weatherstripping

- Flexible polymeric leaf section with overlapped corners and a slip-coating at head and jamb.
- Dual-durometer extruded polymer with bulb at sill and interlocker.

Glazing System¹

- Quality fully-tempered float glass complying with ASTM C 1048.
- Custom and high altitude glazing available.
- Silicone-glazed, 3/4" double-pane, dual-seal, insulating glass
 - [Obscure] with air.
 - [Obscure Low-E with [argon][air]] [Advanced Low-E] [AdvancedComfort Low-E] [SunDefense™ Low-E] [NaturalSun Low-E] with [argon] [air].
– or –
- Triple-Pane Glazing System:
 - Exterior dual-seal insulating glass, silicone-glazed 3/4", [obscure] [[Advanced] [SunDefense™] [SunDefense+] [AdvancedComfort] [NaturalSun] [NaturalSun+] Low-E [with argon]].
 - Interior hinged clear tempered glass panel set in a [veneered (for stain fishes)] aluminum frame, fitted to door panel with continuous gasket seal.
 - Airspace between insulating glass and hinged glass panel is 1-1/32".

Exterior

- Aluminum clad exteriors shall be finished with EnduraClad® protective finish, in a multi-step, baked-on finish.
 - Color is [Standard] [Feature] [custom]₂.
– or –
- Aluminum clad exteriors shall be finished with EnduraClad Plus protective finish with 70% fluoropolymer resin in a multi-step, baked-on finish.
 - Color is [Standard] [Feature] [custom]₂.

Interior

- [Unfinished, ready for site finishing] [factory primed with one coat acrylic latex] [factory prefinished [paint] [stain]₂].

Hardware

- [Standard Exterior handle finish is matched to exterior cladding finish] [Interior and exterior handle finish is [Satin Brass] [Satin Nickel] [baked enamel [Champagne] [White] [Brown] [Matte Black]]].
- Keylock with K-keyway cylinder. Finish is [Chrome].
- Multi-point locking hardware is electroplated steel with stainless steel strikes.
- Vent Lock, secondary lock or vents panel open 4", positioned [24" from top for ≤ 96" tall doors] [48" from top for > 96" tall doors] finish is [White] [Black] to correspond with interior panel color.
- Interior and exterior screen handle finish will be [White] [Black] [Brown] [Fossil] [Morning Sky Gray] to complement screen frame color.

Optional Products

Grilles

- Simulated Divided Light Grilles
 - Interior grilles are 7/8" solid pine. Interior surfaces are [unfinished, ready for site finishing] [factory primed] [factory prefinished [White] [Linen White] [Bright White] [stain,]].
 - Exterior grilles are 7/8" extruded aluminum.
 - Patterns are [Traditional] [Prairie] [Top Row] [Cross].
 - Insulating glass contains non-glare spacer between the panes of glass.
 - Grilles are adhered to both sides of the insulating glass with VHB acrylic adhesive tape and aligned with spacer
– or –
- Grilles-Between-the-Glass₃
 - Insulating glass contains 3/4" contoured aluminum grilles permanently installed between two panes of glass.
 - Patterns are [Traditional] [Prairie] [Cross] [Top Row]
 - Interior color is Interior color is [Black] [White] [Brown₄] [Fossil] [Harvest] [Cordovan] [Ivory] [Tan₄] [Brickstone] [Putty₄].
 - Exterior color₅ is [standard] [feature]₂.

Screens

- InView™ screens
 - Vinyl-coated 18/18 mesh fiberglass screen cloth complying with the performance requirements of SMA 1201, set in aluminum frame, supplied complete with all necessary hardware.
 - Insect screen assembly is top-hung on two adjustable nylon rollers installed on exterior side of door panels.
 - Screen frame exterior is painted to match exterior color.
– or –
- TuffScreen® by Phifer®
 - Vinyl-coated 17/12.5 mesh polyester screen cloth complying with the performance requirements of SMA 1201, set in aluminum frame, supplied complete with all necessary hardware.
 - Insect screen assembly is top-hung on two adjustable nylon rollers installed on exterior side of door panels.
 - Screen frame exterior is painted to match exterior color.

Integrated Between-the-Glass Window Fashions (Triple-Pane glazing only)₂

- Slimshade® Blinds
 - 15 mm aluminum slat, bottom-up blinds with polyester cord ladder
 - Installed in sash between double glazing and interior hinged glass panel.
– or –
- Cellular Fabric Shades
 - 1 1/16" width, bottom-up shades with hidden polyester cord, spun bond Polyethylene Terephthalate (PET) cellular fabric.
 - Installed in sash between double glazing and interior hinged glass panel.

(1) Insulating glass with argon is Low-E coated. All other insulating glass is air-filled.

(2) Contact your local Pella sales representative for current color options.

(3) Available in clear or Low-E insulating glass with argon, and obscure insulated glass.

(4) Tan and Putty Interior GBG colors are available in single-tone (Putty/Putty or Tan/Tan) (Putty mono). Other interior colors are also available with Tan or Brown exterior.

(5) Appearance of exterior grille color will vary depending on Low-E coating on glass.

The TuffScreen and Phifer trademarks are property of Phifer Incorporated.
