Finishes

EnduraClad® Protective Finish Standard Colors + Virtually Unlimited Custom Colors

Interior Prefinished Colors

Because of printing and display limitations, actual colors may vary from those shown.
Grilles

For custom grille sizes and pattern availability, contact your local Pella sales representative.

Integral Light Technology® Grilles

• Extruded aluminum grilles are adhered to the exterior face
• Wood grilles are adhered to the interior face
• Between-the-glass foam spacers, which are aligned with the interior and exterior grilles, replicate the appearance of true divided lights
• Custom grille patterns are available
• Typical grilles for Architect Series Contemporary are 7/8" wide square profile

Grilles-Between-the-Glass 1

• Permanent aluminum grilles are factory-installed inside the airspace of insulating glass
• White, Tan, Brown, Putty, Black, Morning Sky Gray, Ivory, Sand Dune, Harvest, Cordovan or Brickstone interior.
• Exterior finish matches aluminum-cladding color
• Grilles are 3/4" wide
• Interior colors complement today’s most popular interior finishes; choose a color to coordinate with the window or door frame, or select a contrasting grille color for a one-of-a-kind look

Interior GBG Colors

White  Tan  Brown  Putty  Black  Morning Sky Gray  Ivory
Sand Dune  Harvest  Cordovan  Brickstone

Screens

Vivid View® Screen

Provides the sharpest view and is available as an upgrade on Pella wood windows and patio doors. Allows in 29% more light and is 21% more open to airflow compared to conventional screen. PVDF 21/17 mesh, 78% light transmissive.

InView™ Screen

Standard screen on Pella wood windows and patio doors. More transparent than conventional fiberglass, allows 14% more light and is 8% more open to airflow than conventional screen. Vinyl coated 18/18 mesh fiberglass, Complies with performance requirements of SMA 1201.

Conventional Screen

Standard on Rolscreen® retractable screens on patio doors. Black vinyl coated 18/14 mesh fiberglass, Complies with ASTM D 3656 and SMA 1201. Improved airflow is based on calculated screen cloth openness. Screen cloth transmittance was measured using an integrated sphere spectrophotometer.

Available Patterns

Pattern availability may vary depending on size of unit.
Custom configurations are also available, for details contact your local Pella sales representative.
